I'm a result-driven individual and builder at heart, I'm passionate about using technology to solve both large-scale and small-scale problems. I've 3 years of experience building business and user-facing products to scale with modern mobile and web technologies.

Work Experience

Co-founder and Software Developer

Kivifood - Lagos

April 2021 to Present

- My role includes project management, engineering, and general operations
- Implemented an image optimization pipeline that resizes, compresses, and caches images. This, in turn, reduced our image load time by 67%
- Implemented a simple alerting system integrated with Slack which allowed us to distribute incident information to both customers and the operations team, increasing the efficiency of our day-to-day operations

Software Developer

Gofast International - Lagos, Remote

January 2020 to October 2020

- Rebuilt the Gofast mobile payment app
- Built an internal admin panel for tracking app metrics and KPIs such as Acquisition, Engagement, Payments and Transactions
- Implemented a minimal support ticketing and dispute resolution system

Tech stack: Flutter, Reactjs, Firebase, Nodejs

Skills

- Language: Dart, Typescript, Javascript
- Mobile: Flutter, React-native
